

TRAINING AUTOMATION MADE SIMPLE

STREAMLINE ASSIGNMENTS AND SCHEDULING

The promise of online training is that it saves time and energy. But running an online training program can require a lot of effort — until now. Sentix Pro saves your training team time by letting you automate many of the routine tasks of online training.

TRAIN

Scheduled training, custom assignments, and corrective training can be built once, and deployed intelligently as needed.

TRIGGER

Use your telematics, MVR or employment data to trigger training based on trends or events.

REPORT

Record success with compliance reports connected to their assignments, and a powerful on-the-fly reporting tool.
