

CHANGING THE CULTURE OF DISTRACTED DRIVING

It's a liability you simply cannot afford

LifeSaver changes the culture of distracted driving by automatically detecting drives and blocking cell phone use without the purchase of hardware. Your drivers will quickly adjust behavior without losing productivity. Reduce your accidents, liability, and insurance costs.

FEATURES

Auto detects driving

No hardware required

Deploys instantly from the cloud

Fast locking and unlocking

Easy on your battery

Days and times of operation

Closed Loop Driver Feedback

Exception reporting for safety officers

Allows for hands-free calls and maps

App Health Check for drivers

The LifeSaver Difference

Designed by fleets like yours, LifeSaver is built for rapid deployment and ease of use.

Compatible with Android and iPhone, LifeSaver provides locking options on both platforms with monitoring and without hardware.

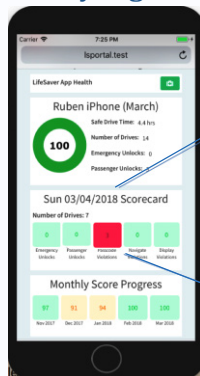

The automated daily Closed Loop Driver Feedback helps to change poor driving habits effortlessly.

Participating auto insurers are providing discounts, cost-sharing, and other incentives to policyholders that use LifeSaver.

FAST AND EASY ONBOARDING

Free Trial
 Our no-risk trial allows you to fully evaluate LifeSaver.

Trial Support
 Assistance to get you up and running and support your needs along the way.

Onboard in hours
 Our Cloud Solution allows us to preload all your drivers into your fleet account in no time.

Rollout at your pace
 Operating in multiple states with multiple divisions? No problem, you can deploy all drivers at once or one team at a time. In seconds.

Scalable Platform
 Supports dozens to thousands of drivers. Our platform is built to scale.

SIMPLE TO USE FLEET PORTAL

Fleet Design
 The Fleet Portal is designed by fleet customers for easy setup and intuitive use.

Administrators
 Define multiple account administrators to view and manage Corporate Policy for fleet groups, safety officers, and drivers.

Safety Officers
 This view allows the Safety Officers to focus on the teams of drivers to which they are assigned.

Exception-based Reporting
 Automatic daily and weekly exception reporting helps you focus only on drivers who need the most help.

Open Architecture
 Special reporting and API integration is available to meet your specific needs.

AUTOMATIC FOR ALL EMPLOYEES

Driver App
 Drivers click an invite link to install the app. App login automatically connects driver to Fleet Portal.

Automatic Updates
 The smartphone apps and the Fleet Portal update automatically with no action required on your part.

Closed Loop Feedback
 Automatically notifies drivers of phone violations and provides corrective action videos.

App Health Check
 Automatically monitors app health and alerts driver of any app configuration issues before driver's score begins to suffer.

CUSTOMER SUPPORT

On-Line Support
fleet@lifesaver-app.com is always available to answer your questions.

Driver Support
 Drivers can ask questions directly from the app and receive prompt customer support.

Phone Support
 Prefer to call? We're ready and will get back in timely manner.

Tier 1 Support
 Trained Account Executives are available to answer your questions with remote access and diagnosis.
