

Minimize Your Risk & Protect Your Bottom Line

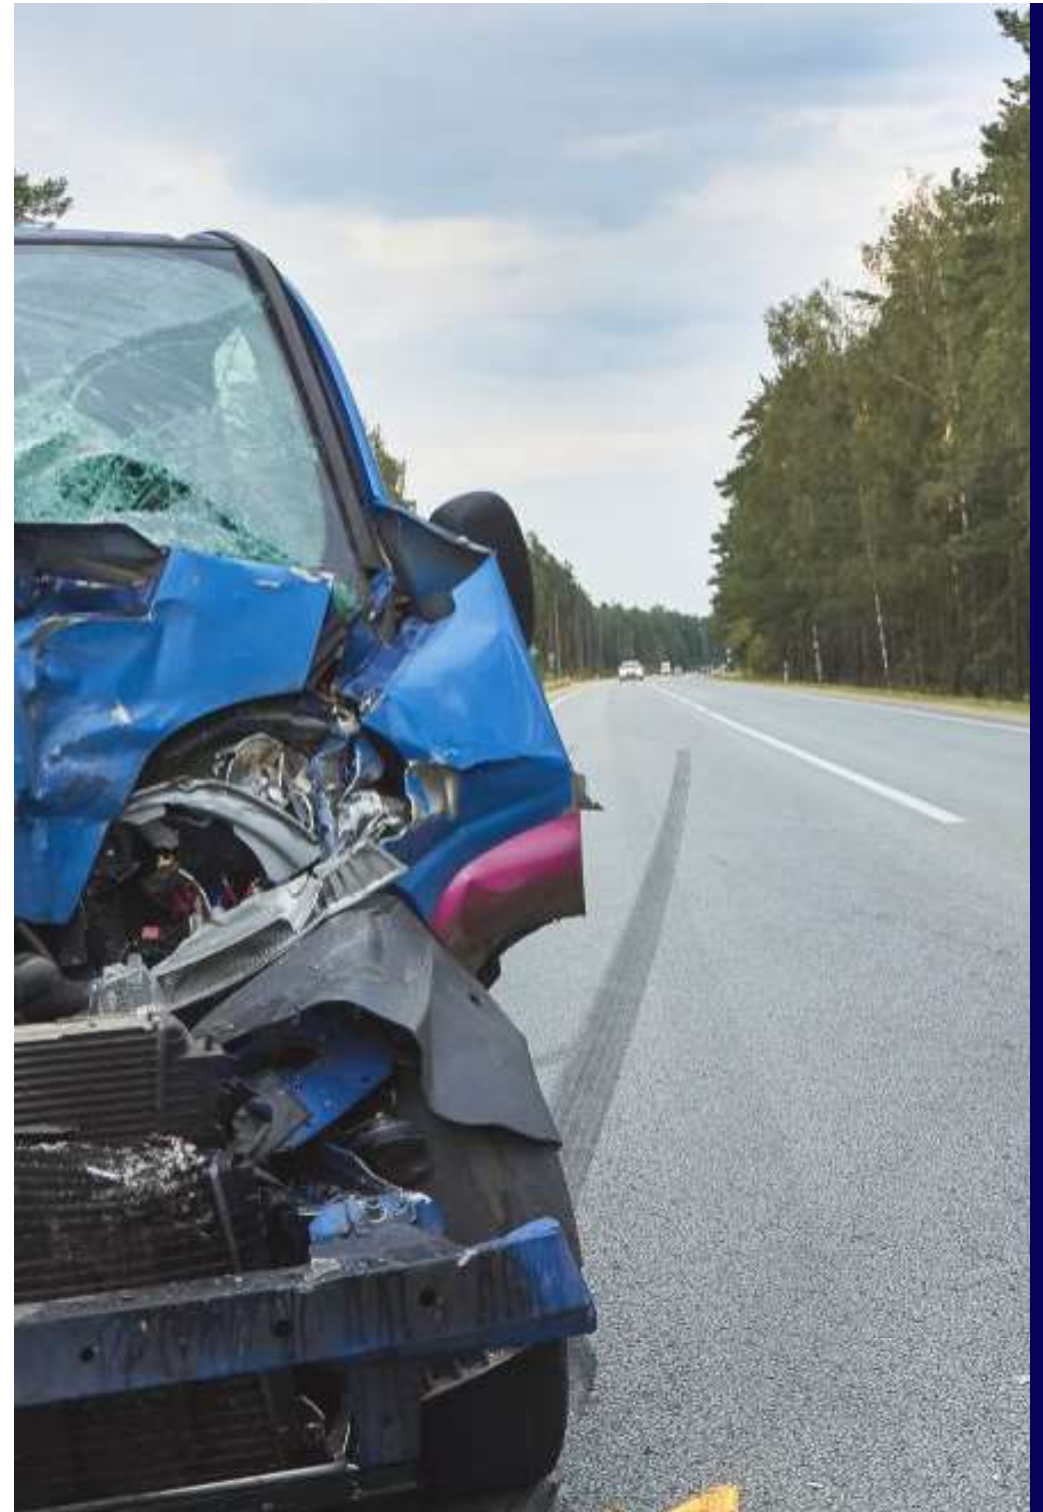

Embark Safety's **MVR Monitoring** technology provides immediate alerts when new violations and suspensions appear in a driver's record.

Do You Know Your Drivers?

Drivers with suspended licenses are **three times more likely** to kill or seriously injure others in collisions.

DQ File Manager

Focus on Safety, not on Files.

By digitizing all your files, you have more control to zone in which drivers are more at risk, or requiring special attention.

- ✓ Save your files in a secure portal
- ✓ Create custom file categories
- ✓ Add notes and set reminders

Monitoring Your Drivers With Embark Safety Can:

Reduce vehicle accidents

Save your company time
