

THE ULTIMATE TRUCKING LEARNING
MANAGEMENT SYSTEM *designed to train &
onboard drivers effectively & efficiently.*
*Infiniti-I is the most trusted LMS provider for over
1,500 companies and 300,000 drivers*

“ Now, more than ever, being able to train a remote workforce has presented new challenges across our industry but we all still face one collective problem; training our drivers. The Infiniti-i Workforce Solutions has allowed Ozark Motor Lines to streamline our orientation from 2.5 days to 6 hours and our new hires are able to complete their online training remotely before the drug and alcohol results are in.

Traditional expenses involved during the on-boarding process are reduced allowing us to get them on the road quicker with the same adequate training. This results in Ozark being able to generate revenue faster due to the Infiniti-I Workforce Solutions. ”
